

**Support the Privatization
Transparency and Accountability
Ordinance (Sawyer, 6th)**

**It's time for a full and fair hearing on the
Privatization Transparency and Accountability Ordinance.**

This ordinance will:

- Ensure privatization deals are based on public debate—not backroom deals.
- Create a fair and open process for privatization.
- Mandate sufficient oversight by requiring a public hearing and City Council approval of privatization of city assets or services.
- Require that a cost-effectiveness study be completed with ample time to review it prior to any privatization deal.
- Establish a due diligence timeframe for privatization deals—requires at least 30 days between the presentation of a cost-effectiveness study to City Council and the vote.
- Expose potential conflicts of interest by requiring a list of the political contributions from contractors submitting bids.
- Ensure ongoing accountability through publicly available annual performance reports.
